LINDSAY, CALIFORNIA

CONDITIONS OF SALE

ALL FRUIT TREES quoted for sale in this Price List are of the highest quality, grown especially for the Wholesale Trade. In the case of budded stock, seedlings have been thinned in the nursery row before budding to allow each tree sufficient room to develop a strong, well branched top and root growth. They are carefully dug and graded, so that every tree will be a good specimen for its grade. All trees are put up 10 to the bundle, except the largest size. Please order in units of 10 on all sizes except 6-8 ft., which may be ordered in units of 5.

ON ORDERS TALLING 1,000 or more trees, we allow a quantity discount of 5% from the quoted prices. This discount does not apply on Patented Fruit Trees, which are priced on a sliding scale, but they may be counted in figuring the quantity ordered. The quantity discount does not apply on Grapevines.

ON ORDERS TALLING 2,000 trees or more, the quantity discount increases to 7%.

TERMS:—10% Deposit with order, balance on delivery. Or, if credit is established, we allow not to exceed 60 days for payment. A discount of 5% will be allowed on orders placed and paid for by not later than November 1st.

We allow a discount of 3% for Cash on Delivery, or 5% for Cash and Carry.

ALL STOCK IS GUARANTEED to be first class, as represented, and we will be glad to entertain any complaints, if made not later than 30 days from receipt of stock. Prices quoted are f. o. b. Lindsay, where shipment is to be made by common carrier. Our trucks make delivery to most California points at the time stock is dug, in late December and January, and no delivery charge will be made for this service on initial orders, where customer resides in our regular delivery area.

OUR STOCK IS GROWN in an area free from Parlatoria (Olive) Scale, making fumigation unnecessary.

OUR GRAPEVINES may be certified for shipment anywhere.

FRUIT TREES

YEARLING FRUIT TREES:—

6 to 8 ft. Grade, 11/16 in caliper and up.....	.50 each
